

## Online safety.

During this time of home schooling we are asking you to access a lot of materials online. We would like to reinforce the importance of children staying safe online.

Please think about the importance of a safe online environment and we encourage you to set age-appropriate parental controls on digital devices and use internet filters to block malicious websites. These are usually free, but often need to be turned on.

The following resources support parents and carers to keep their children safe online:

- [Thinkuknow](#) provides advice from the National Crime Agency (NCA) on staying safe online
- [Parent info](#) is a collaboration between Parentzone and the NCA providing support and guidance for parents from leading experts and organisations
- [Childnet](#) offers a toolkit to support parents and carers of children of any age to start discussions about their online life, to set boundaries around online behaviour and technology use, and to find out where to get more help and support
- [Internet matters](#) provides age-specific online safety checklists, guides on how to set parental controls on a range of devices, and a host of practical tips to help children get the most out of their digital world
- [London Grid for Learning](#) has support for parents and carers to keep their children safe online, including tips to keep primary aged children safe online
- [Net-aware](#) has support for parents and carers from the NSPCC, including a guide to social networks, apps and games
- [Let's Talk About It](#) has advice for parents and carers to keep children safe from online radicalisation
- [UK Safer Internet Centre](#) has tips, advice, guides and other resources to help keep children safe online, including parental controls offered by home internet providers and safety tools on social networks and other online services
